DETAILED ACTION

Response to Amendment

Applicant's amendment filed on 26 February 2010 has been entered. Claims 1, 9 and 17-24 have been amended. Claims 1-24 are still pending in this application, with claims 1, 9 and 17 being independent.

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Response to Arguments

2. Applicant's arguments with respect to claims 1-24 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

3. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding independent claims 1, 9 and 17, the CAM receives VPI, VCI and CID information, where the CID information is only present for AAL 2 cells (as taught by ATM adaptation layer specifications). Therefore, it should be reflected in the claims that the VPI/VCI is in reference to AAL5 cells and the VPI/VCI+CID information is in reference to AAL2 cells.

Art Unit: 2474

The following is a recommendation for clearly and distinctly claiming the intended limitation in each independent claim:

“... the index corresponding to unique VPI/VCI combinations for ATM Adaptation Layer (AAL) 2 cells and VPI/VCI+CID combinations for AAL 5 cells...”

Allowable Subject Matter

4. Claim 1-24 are allowable over the prior art. However, there is a 35 U.S.C. 112, 2nd paragraph rejection on the claims. Appropriate correction is required to place the claims in condition for allowance.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
